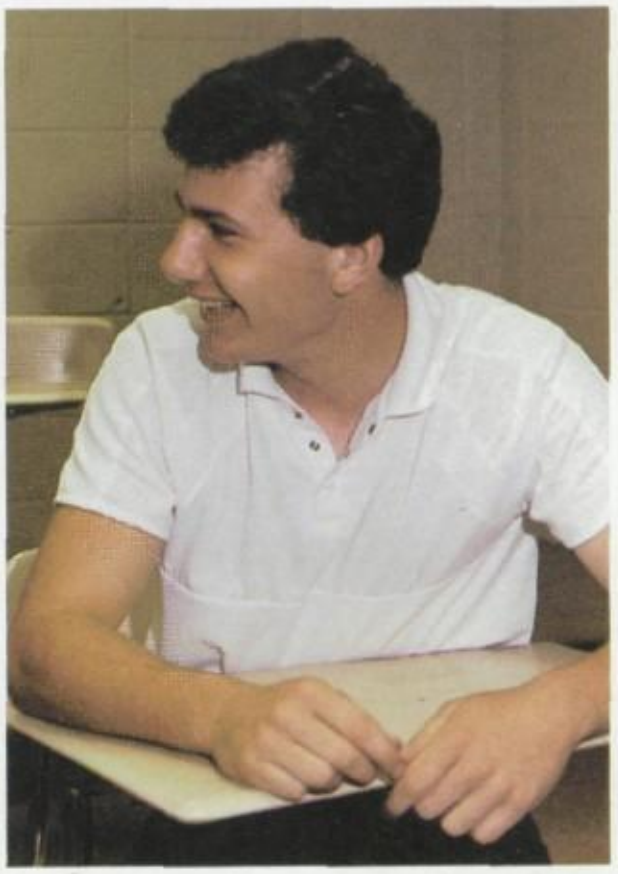
The Soviets Celebrate Sixty



'87

The class of 1987 dedicates the yearbook to our Director Mr. Francis E. Woods. His commitment to vocational education has paved the way for students to prepare to meet the industrial challenge. His time and efforts were spent trying to make our four years at Platt meaningful and memorable. His decisions affected our everyday life. Mr. Woods has had an impact on our past and input into our future.

We appreciate his dedication, concern, and leadership. Thank you Mr. Woods.

The class of 1987 dedicates the yearbook to Mr. O'Toole. As a class advisor Mr. O'Toole made certain that the students were his primary concern. He helped make our experience at Platt 'special'. Mr. O'Toole directed numerous fundraising activities. He arranged for the distribution of class rings. He made our Junior prom a 'Night to Remember'. The class of 1987 is grateful for his guidance, concern, and effort. It is with deep affection and respect that we say "Thank you".

The class of 1987 dedicates the yearbook to Miss Koolis. Her devotion to others extends beyond the classroom. Miss Koolis accepted the responsibility of being a class advisor. For two years Miss Koolis served as the volleyball coach. She taught us the importance of strong discipline and good sportsmanship. As the yearbook advisor she has spent countless hours producing a tribute to others. Her involvement in our Junior prom insured its success. Her patience and understanding have left strong imprints on the entire student body. The class of 1987 will fondly remember Miss Koolis. Thank you for your consistent faith and belief in us.

AVIONICS

Avionics centers around the electroni maintenance of aircraft. Once a student ha completed the four year course at Platt the are eligible to take the Federal Communica tions Commission's Second Class Radio Telephone licensing examination. Durin their freshman and sophomore year students spend time learning theory: th basic principles of Ohm's Law and the mor complex components of integrated circuits Students begin to build a trainer. They con stuct a sheet metal box which requires th bending, cutting and shaping of sheetmetal.

During their junior year, students install their own completed circuit boards. The circuit boards are designed by the students and require work with various switches, springs, wires and resistors. The trainer is used throughout the senior year to perform diversified experiments.

Without the dedication of Mr. LaBorde none of this would have been possible. He has guided, taught and supported us during these past four years. The Avionics Class of 1987 would like to thank him for believing in us and for helping us believe in ourselves.

CULINARY

The Culinary Arts Program provides trainin three main areas of the foods industry: dining ro school lunch, and bakery. A great deal of ded tion is needed by each student in order to succ in the program. We have learned to profit fro failed recipe rather than becoming discouraged

As "dining room" students we are tau storeroom management and fine restaurant co ing. Each day we provide restaurant-style lunch the faculty. We also serve at school functi throughout the year. For our efforts in both of th areas we receive many compliments.

As "school lunch" students we are taught quc ty cooking. The program requires us to prep lunch for the entire student body each school d This activity provides the background we need industrial and institutional cooking.

ELECTRONIC

The Electronics Shop is a preparatory course for students wanting to be electronic or computer technicians. Mr. Parker is the freshman and sophomore instructor. During the first two years the students learn DC and AC theory and are introduced to semi-conductor devices. Mr. Izzo is the junior and senior instructor. During the junior year the students learn more about semi-conductor devices and about digital electronics. This knowledge is applied to actual trade work. The senior year involves more digital theory and an introduction to microprocessors. Radio and television applications are included in the course and are used in actual repair work.

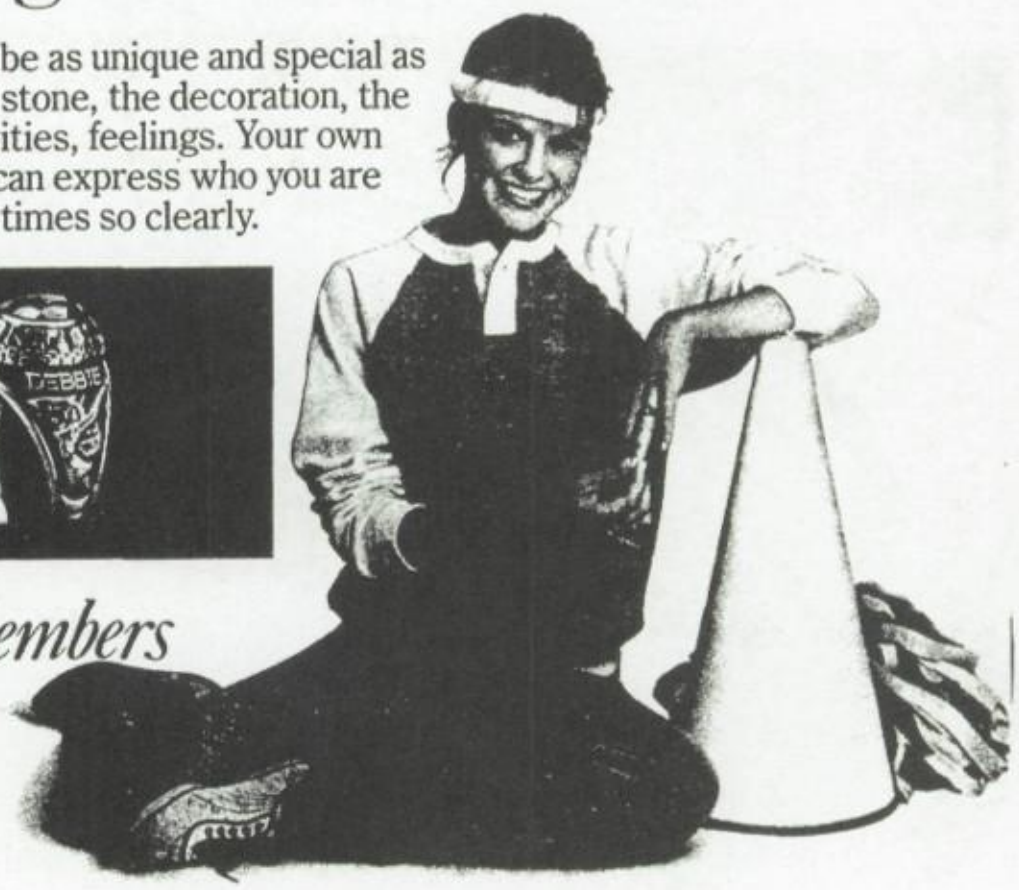
Nobody's memories are quite like yours. Nobody's class ring should be either.

When your class ring is from Balfour it can be as unique and special as you are. Because *you* choose the style, the stone, the decoration, the engraving–to express *your* interests, activities, feelings. Your own personal class ring from Balfour. No other can express who you are so exactly. Or help you recall those special times so clearly.



Balfour® *No one remembers in so many ways.*

ACKNOWLEDGMENT

THERE ARE MANY WHOM THANKS SHOULD BE GIVEN FOR ALL THEY HAVE DONE: TEACHERS, PARENTS AND THE YEARBOOK STAFF. I WOULD ESPECIALLY LIKE TO THANK TWO PEOPLE WITHOUT WHOM THIS YEARBOOK COULD NOT HAVE BEEN COMPLETED, KERRY AND HER MOM.

THANKS FROM A FRAZZLED YEARBOOK ADVISOR
